

Day 1:Tasks

1. Create a table listing 3 types of printers, 2 types of scanners, and 2 types of webcams, and for each, write one real-life use case .

Types of Device	Name of Device	Real life of use
Printer	Inkjet Printer	Printing college assignments and color documents , photos ,pdfs etc.
Printer	Laser Printer	Printing hundreds of bills in an office
Printer	Dot Matrix Printer	Printing railway, bus tickets and invoices with carbon copies
Scanner	Flatbed Scanner	Scanning photos, certificates, and documents
Scanner	Handheld Scanner	Scanning products at a grocery store
Webcam	External USB Webcam	Video conferencing, online teaching, and live streaming with better video quality
Webcam	Wireless Webcam	Remote monitoring of rooms, offices, or homes without a USB cable

2. Draw a labeled diagram showing how a typical home printer connects to a laptop or PC, including the connection interface used (USB, Wi-Fi, or Bluetooth).

HOME PRINTER CONNECT TO LAPTOP/PC

3. List three different connection interfaces (such as USB, Wi-Fi, Bluetooth) used by peripherals like printers, scanners, and webcams, and for each, name one advantage and one disadvantage.
Hint: Think about speed, convenience, and compatibility.

Connection Interface	Advantage	Disadvantage
USB	Fast and reliable data transfer	Requires a physical cable
WIFI	Wireless connection and easy sharing	Depends on network signal strength
BLUETOOTH	Easy wireless pairing without cables	Short range and slower speed

4. Pick any one device you use at home or college (printer, scanner, or webcam). Write step-by-step instructions for how you would connect it to your computer, including what cable or wireless method you would use and any setup steps required.

Device : Bluetooth Printer

Steps to Connect a Bluetooth Printer to a Computer:

1. Turn on the printer and make sure Bluetooth is enabled.
2. Turn on Bluetooth on the computer /laptop.
3. Open the Bluetooth settings option on the computer.
4. Click **Add Device** and search your devices.
5. Select the printer name from the list of devices.
6. Pair the printer with the computer.
7. Open a document and print a test page to confirm that the printer is connected properly.

Connection Method Used: Bluetooth (Wireless)

Result: The printer is successfully connected to the computer and ready for printing documents.
